Part B for July 43

SUBJECT

Food Adulteration Act —
Provision of Expenditure by municipalities

To The D C's of Distts

Sl 2 L 810-8 D 17/7/43

Issues instructions re provision of a sum in the budget

Hsu
21/8

Firm:

Re. Dairy P. H.

Letter no C/66-118 Dt. 4-6-63

Requests that the Local Bodies may be instructed to provide an expenditure of Rs 150/- in their respective budgets for food analysis by the Govt analyst and to send him monthly returns relating the no of samples sent for analysis and the action taken against the offenders

The proposal is held for orders

27/6

It will be seen from the last para that the Director of Public Health has stated that the Prevention of Food Adulteration Act has been introduced in 50 Mlpls (municipalities) as against 103 such Mlpls in the State the Act is practically a dead letter, although the Director of Public Health has requested the Govt concerned thro the Dists, to take necessary action in this behalf. It would indeed be a hard thing for the Mlpls referred to to make a provision of Rs 150/- every year in their Budgets as they may, for the present, be requested to provide a token sum of Rs 50/- in their Budgets every year as a beginning & increase it later on, if needed

on the experience to be gained by sending a few samples to the Public Health Institute for analysis etc that appears necessary to be done at present in order to make the Act of the rules effective, so as to get the Municipalities out of their present difficulties by enabling them to take necessary action. If approved, the Directors concerned will be required to advise the Municipalities to make a provision of Rs 50/- in their Budget for the year 1943-44 so that a small beginning might be made.

No C 146-118
Encls nil

FROM OFFICE OF THE DIRECTOR OF PUBLIC HEALTH
IN MYSORE,
BANGALORE.

Date 4th June 1943

To

The Secretary to Government,
Law Department,
Bangalore

SECY LAW DEPT
GOVT OF MYSORE

Sir,

I have the honour to inform that Food Adulteration Act has been brought into force in all the Municipalities in the different district as mentioned below Though the Food Adulteration Act has been in force no action has been taken from the date the act came into force and this partly due to non-provision of money for expenditure on food analysis and sending samples to the Government analyst for report

I enclose herewith a copy of the circular letter sent to all the Deputy Commissioners requesting them to instruct the Municipalities to provide at least Rs 150/- per year for expenditure and send at least one sample every week to the Public Health Institute, Government Analyst, so that the quality of the food particularly ghee, milk and butter that are sold to the people may be controlled to prevent adulteration

The replies received from the Deputy Commissioners have not been encouraging as many of the Municipalities pleaded inability to provide in their budget Rs 150/- for the whole year The Central Advisory Board of Health have recommended the advisability of extending the provision of the Act all over the administration

I request that you may be so good as to issue necessary instruction to the Deputy Commissioners to provide Rs 150/- in the next budget for the analysis of samples sent to the Government analyst, and to instruct the municipalities to send every month returns as to the number of samples taken during the month and action taken by the Municipalities on the offenders

I have the honour to be,
Sir,
Your most obedient servant,
for Director of Public Health

JBR

(P T O

Circular letter No C 166-79 dated 16th February 1943 from the Director of Public Health in Mysore, Bangalore, to the Deputy Commissioners of all Districts

---

I have the honour to state that the prevention of Food Adulteration Regulation has been brought into force in the undermentioned * municipalities in your District so far no samples of food have been received at the Public Health Institute, Bangalore, from them for testing, whether the articles of food seized are genuine or adulterated this is, perhaps, partly due to want of provision in the budgets of the Municipalities for meeting the expenses to be incurred in connection with the analysis of food-stuffs by the Government Analyst

I request you to be so good as to advise these Municipalities to provide at least a sum of Rs 150/- in their budgets for expenditure under Food Analysis and to send at least one sample a week to the Government Analyst for analysis and report, so that the municipalities may take action under the Food Adulteration Act and give the citizens of the municipality better food

A very early reply on the action taken will be appreciated

--o-
